**MICRO PEA TENDRILS**  
 4OZ / #H231000

**\$13.40/CA**

My favorite of the micro greens, amazing visual with big round leaves and thin winding tendrils, fresh flavor of sweet snow peas that can enhance both sweet and savory dishes, plus, the perfect crispy texture.

**APRICOTS**  
72CT / #F370200

**\$25.00/CA**

Apricots are one of the smaller stone fruits. Their shape is rounded yet oblong. The skin is smooth and velvety, golden orange with slight rosy blushing. The fruit contains a loosely connected central pit. These apricots are firm, and somewhat sweet with a slightly tart finish and a juicy, tender mouthfeel.
