

# Specialty Ordering Guide

May 15th - May 21st

ITEMS LISTED IN **BOLD** ARE READILY AVAILABLE FOR ORDERING, ALL OTHERS REQUIRE 48 HOURS' NOTICE

## APRICOTS

20#  
F370600

Small, beautiful, golden orange fruits with velvety skin and flesh: not too juicy, but definitely smooth and sweet. Their flavor is almost musky, with a faint tartness that is more pronounced when the fruit is dried. Some people think of the flavor as being somewhere between a peach and a plum; fruits to which they're closely related.

## RAINIER CHERRIES

15#  
F371900

Thank you, Harold Fogel! He along with other researchers are responsible for crossing the Bing and Van cherry varieties. Much to their surprise, the combination of these two red cherries produced a golden yellow cherry with a red blush and incredibly sweet flavor. Rainier cherries were named after Mount Rainier, the highest peak in Washington state. These amazing super premium cherries are sweet with a thin skin and thick creamy-yellow flesh. The cherries are very sensitive to temperature, wind rain and birds... so we're always thrilled to get them when they arrive and they sure won't last long!

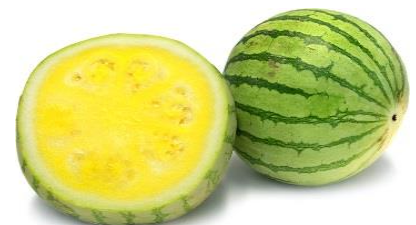

## IN SEASON

|                      |         |
|----------------------|---------|

| Fiddlehead Fern      | V172900 |
| Gooseberries, Peeled | F321100 |
| Mulberries           | F321300 |

## YELLOW WATERMELONS

6CT  
F353602

These melons can vary greatly in size, shape and color depending upon variety. Whether round or oblong, they usually exhibit the standard bright green outer rind striped with darker green markings. The flesh can range from pale yellow to deep gold and may contain large brownish black seeds or be completely seedless. While their succulent and crisp texture is comparable to other standard red watermelons, their flavor is usually much sweeter offering notes of honey and apricot. Currently we have a medium sized round seedless in stock that is watermelon candy sweet with bright yellow flesh.

## ASIAN

|                                  |         |
